

NIGHT RACER 90 HS1

More light and vibration-resistance

Up to 90% more light

For better visibility and significantly shorter reaction times compared to standard halogen lamps

Up to 30 m longer light beam

For improved visibility and less eye strain compared to standard halogen lamps

Vibration resistance

Tested for the unusually high loads caused by speed and changing road surfaces

The motorcycle light with up to 90% more light
NIGHT RACER 90 motorcycle lamps provide more light for more time to react. Compared to standard halogen lamps, they bring up to 90% more light, up to 30 meters longer light beam and up to 10% whiter light to the road. With their vibration resistant technology, the lamps are tested under real conditions for the unusually high loads caused by speed and changing road surfaces. Their design is eye-catching with partial blue coating and silver cap.
